

a ranking system to see what areas are most critical. Mr. Wilson said regardless of ranking all kids deserve a safe place to play. Mr. Fuqua said frequency of use should also be a factor. Mr. Pisarski said once we get pricing and ranking done, we will reach out to municipalities and see if they are willing to partner with upgrades.

Discussion of County Broadband Initiative

The County and The Authority are partnering together to conduct a survey for a speed test for broadband. They are asking county residents to go to: countybroadband.info to conduct a free internet speed test. The test is being done to find the problem areas for Wi-Fi. The county will be attending events to get the word out regarding the survey, it will also be posted on social media. Mr. Pisarski said we have about eight weeks to collect the data. We are relying on internet providers to give us their internet coverage and speeds, with conducting our own survey we can create a map and see if internet providers data is correct.

Planning Department Updates – Matthew Pisarski

The liaisons to the commission are working to get the three seats filled to have a full commission. Director Barber said they try to get people from all areas of the county and different aspects of recreation. We should have a full commission by April. Mr. Pisarski said the county received grant funding for the trail system on Morias Avenue in Millville.

County Commissioner Comments

Director Barber commented that the commission board is diverse, and the two new commissioners are eager to learn the workings of the county. At the moment, the county budget has a zero-tax increase.

Recreation Commissioners Comments
